Address: Port Stanley Arena and Community Centre - 332 Carlow Rd, Port Stanley, ON N5L 1B6

West Port Stanley

Class Environmental Assessment Stormwater Management Plan (SWMMP)

Public Information Centre # 3

The Study

The Municipality of Central Elgin (Municipality) has retained Arcadis/IBI Group to develop a Stormwater Management (SWM) Master Plan (SWMMP) to establish a much-needed road map for the Municipality to advance the development of a comprehensive stormwater management strategy to address current and future needs within the West Port Stanley (Study Area) area. Refer to Figure 1-1 Location Plan for the Study Area extents.

A key component of the study will be consultation with interested stakeholders (public, landowners and regulatory agencies). Public consultation will involve three (3) Public Information Centres (PICs). This THIRD session will be designed to obtain input from the public to assist informing the decision-making process.

The Process

The study is currently planned as a 'Master Plan' project in compliance with the Municipal Engineers Association document "Municipal Class Environmental Assessment," (October 2000, amended 2023).

Comments

We are interested in hearing any comments or input that you may have about this Study. Comments and information regarding the study will be collected to assist the Municipality in meeting the requirements of the Environmental Assessment Act.

You are invited to attend a PIC meeting on Wednesday, February 26 at 5 -7 p.m. The PIC meeting will include information on the anticipated works and provide an opportunity for questions to be answered. The documentation regarding the study will be available on our website for review. Comments can be provided verbally at the meeting, via email, or through a comment sheet.

These comments will be maintained for reference throughout the project and will become part of the public record. Under the Freedom of Information and Protection of Privacy Act and the Environmental Assessment Act,

unless otherwise stated in the submission, any personal information such as name, address, telephone number and property location included in a submission will become part of the public record files for this matter and will be released, if requested, to any person.

For further information on the project, or on the planning process being followed consult
